

IGICS: JGA Keynote Program
The 11th International Gastrointestinal Consensus Symposium
Program

Date: Saturday, February 10th, 2018

Topic: Gastrointestinal cancer and Gastrointestinal infection

Supported by FUJIFILM Medical Co., Ltd.

8:30~9:50 (80min.)

“Hana D”, 4th floor, Main Tower, Keio Plaza Hotel

Oral session 1 “Gastrointestinal cancer 1”

Chairpersons: Shin'ichi Takahashi (Kosei Hospital, Japan)

Francis K. L. Chan (The Chinese University of Hong Kong, China)

IO1-1 Coproporphyrinogen oxidase(CPOX) and protoporphyrinogen oxidase(PPOX) are involved in fluorescence intensity of laser-based photodynamic endoscopic diagnosis for early gastric cancer (EGC)

Hiroki Kurumi (Tottori University, Japan).

IO1-2 Molecular status changes according to tumor location in EGJ adenocarcinoma

Yu Imamura (The Cancer Institute Hospital of Japanese Foundation of Cancer Research)

IO1-3 Rejuvenating action of placenta derived mesenchymal stem cells led to prevention of Helicobacter pylori-associated gastric cancer

Jong Min Park (CHA University Bundang Medical Center, Korea)

IO1-4 Automatic Detection of Early Gastric Cancer by Training a Deep Learning Algorithm

Wang Dong (GI Department, Shanghai Changhai Hospital)

IO1-5 What is an optimal treatment for superficial non-ampullary duodenal epithelial tumors?

Yuichi Kojima (Osaka Medical College, Japan)

IO1-6 Impact of BLI for detection and differentiation of superficial GI neoplasia

Ang Tiing Leong (Changi General Hospital, Singapore/ Yong Loo Lin School of Medicine, National University of Singapore)

- IO1-7 Small Bowel Malignancy in Patient with Obscure Gastrointestinal Bleeding in Cipto Mangunkusumo Hospital, Diagnosis by Enteroscopy: A Case Series**
Hasan Maulahela (Universitas Indonesia, Indonesia)
- IO1-8 Hepatocellular carcinoma surveillance is no longer cost-effective in females after hepatitis B surface antigen seroclearance younger than 60 years old**
Terry Cheuk Fung Yip (The Chinese University of Hong Kong, China)

9:50~10:50 (60min.)

“Hana D”, 4th floor, Main Tower, Keio Plaza Hotel

Oral session 2 “Gastrointestinal cancer 2”

Chairpersons: Yasuhisa Sakata (Saga Medical School, Japan)

Abdul Aziz Rani (University of Indonesia Cipto Mangunkusumo Hospital)

- IO2-1 The Utility of the Japanese NBI Expert Team (JNET) versus NICE Classification in the Management of Colorectal Polyps**
James Weiquan Li (Changi General Hospital, Singapore)
- IO2-2 Green tea extracts for the prevention of metachronous colorectal polyps among patients who underwent endoscopic removal of colorectal adenomas: A randomized clinical trial**
Dong Ho Lee (Seoul National University Bundang Hospital, Korea)
- IO2-3 Fecal Bacteria Act as Novel Biomarkers for Non-Invasive Diagnosis of Colorectal Neoplasm**
Jessie Qiaoyi Liang (The Chinese University of Hong Kong, China)
- IO2-4 Prediction of the poor prognostic factors for stage II colorectal cancer**
Yusuke Okuda (Kasugai Municipal Hospital)
- IO2-5 Primary colorectal lymphomas: a clinicopathologic study of 64 patients**
Shotaro Nakamura (Iwate Medical University, Japan)

13:10~13:30 (20min.)

“Hana D”, 4th floor, Main Tower, Keio Plaza Hotel

IGICS Report on the result of the questionnaire

Satoru Yamaguchi (Dokkyo Medical University, Japan)

13:30~14:30 (60min.)

“Hana D”, 4th floor, Main Tower, Keio Plaza Hotel

Oral session 3 “Gastrointestinal infection 1”

Chairpersons: Kazunari Murakami (Oita University, Japan)

Kwong Ming Fock (Changi General Hospital, Singapore)

IO3-1 Rapid diagnosis of “*Helicobacter pylori*” infection

by gamma-glutamyltranspeptidase-activated Fluorescent probe

Taro Akashi (Nagasaki University Hospital, Japan)

**IO3-2 LncRNA THRIL is involved in the phosphorylation of cagA and regulates
Helicobacter pylori cagA induced-inflammation**

Sang Kil Lee (Yonsei University College of Medicine Severance Hospital, Korea)

**IO3-3 Walnut phenolic extract alleviates non-steroidal anti-inflammatory drug-induced
gastric mucosal damages by increasing cyclooxygenase-2 inhibition, 15-
hydroxyprostaglandin dehydrogenase induction, and heme oxygenase-1
induction**

Jong-Min Park (CHA Cancer Prevention Research Center, CHA Cancer Institute, CHA
University, Korea)

**IO3-4 Placenta derived mesenchymal stem cells afforded rejuvenation of *Helicobacter*
pylori-associated atrophic gastritis better than cord derived or adipose tissue
derived MSCs**

Jong-Min Park (CHA Cancer Prevention Research center, CHA University, pangyo,
Korea)

IO3-5 Microbial compositional and ecological dysbiosis in gastric carcinogenesis

Olabisi Oluwabukola Coker (The Chinese University of Hong Kong, China)

**IO3-6 Extensive gastric mucosal atrophy may prevent from superficial non-ampullary
duodenal epithelial tumor (SNADET)**

Yohei Koyama (Tokyo Medical University, Japan)

14:30~15:30 (60min.)

“Hana D”, 4th floor, Main Tower, Keio Plaza Hotel

Oral session 4 “Gastrointestinal infection 2”

Chairpersons: Tetsuya Mine (Tokai University, Japan)

Jose D. Sollano (University of Santo Tomas, Manila, Philippines)

IO4-1 P-CAB (revaprazan) prevented indomethacin-induced permeability through tightening TJs

Young-Min Han (CHA Cancer Prevention Research Center, CHA Cancer Institute, CHA University, Korea)

IO4-2 Verification of intestinal microflora-mediated mucosal homeostasis by immunoglobulin A

Takashi Nagaishi (Tokyo Medical and Dental University, Japan)

IO4-3 Pathogenic role of dysbiosis in the development of 5-fluorouracil-induced intestinal mucositis in mice

Nahla Hamouda (Kyoto Pharmaceutical University, Japan)

IO4-4 ENDOSCOPIC APPLICATION OF NEW HEMOSTATIC POWDER (UI-EWD®) IN GASTROINTESTINAL BLEEDING

Yong Woon Shin (Inha University School of Medicine, Japan)

IO4-5 Health-related Quality of Life and Personal Living Status among Patients with Inflammatory Bowel Disease: A Multicenter Investigation in Mainland China

Jun Shen (Shanghai Renji Hospital/Shanghai IBD Center, China)

IO4-6 A case of esophageal motility disorder in systemic sclerosis treated by acotiamide

Tsutomu Takeda (Juntendo University Juntendo Tokyo Koto Geriatric Medical Center, Japan)

15:30~17:10 (100min.)

“Hana D”, 4th floor, Main Tower, Keio Plaza Hotel

IGICS Poster session 1 & Poster session 2

Chairperson: Qi Zhu (Shanghai Jiao Tong University School of Medicine, China)

- IP1-1 Clinical Efficacy & Safety of Gasmotin in Functional Dyspepsia Patients**
Abdul Aziz Rani (Universitas Indonesia, Indonesia)
- IP1-2 New Paradigm for cancer prevention; dietary kimchi prevents inflammation and cancer by Helicobacter pylori in vitro**
Yoo Kang (CHA Cancer Prevention Research Center, CHA Cancer Institute, CHA University, Korea)
- IP1-3 Walnut phenolic extract inhibited Helicobacter pylori-induced STAT3 phosphorylation through activation of PPAsR γ**
Eun-A Kang (CHA Cancer Prevention Research Center, CHA Cancer Institute, CHA University, Korea)
- IP1-4 Modified docetaxel + cisplatin + capecitabine (DCX) for gastric cancer**
Osamu Maeda (Nagoya University Hospital, Japan)
- IP1-5 Small Intestinal Lymphoma with Obstructive Ileus Requiring Surgery**
Saskia Aziza Nursyirwan (Universitas Indonesia, Indonesia)
- IP1-6 A Rare Cause of Obscure Occult Gastrointestinal Bleeding by Giardia Lamblia**
Pitulak Aswakul (Samitivej Sukhumvit Hospital, Thailand)
- IP1-7 Enteroscopy Findings : Hookworm Infection As Cause of Severe Anemia**
Amanda Pitarini Utari (Universitas Indonesia, Indonesia)

Chairperson: Ki-Baik Hahm (CHA University School of Medicine, Korea)

IP2-1 Comparison of mucosal defect size and resection depth after hot and cold snare polypectomy

Sho Suzuki (Nihon University School of Medicine, Japan)

IP2-2 Clinical usefulness of endoscopic assessment in ulcerative colitis using linked color imaging: a preliminary pilot study with 10 patients

Kohei Yamanouchi (Takagi Hospital, Japan/ Saga Medical School, Japan)

IP2-3 Pretreatment of Probiotic Cocktail Bifico Ameliorates Colitis-Associated Colorectal Cancer in Mice: Transcriptomic Analysis and Gut Flora Profiling

Huan Song (Ruijin Hospital, Shanghai Jiaotong University School of Medicine, China)

IP2-4 The Association of Colonic Diverticular Disease and Colonic Adenoma in Filipinos

Clarel Camille B. Ng (University of Santo Tomas, Manila, Philippines)

IP2-5 Diverticular Disease of the Colon: An Analysis of the Clinical Characteristics and Risk Factors in Adult Filipino Patients

Clarel Camille B. Ng (University of Santo Tomas, Manila, Philippines)

IP2-6 Retrospective study of the preoperative chemical disinfection methods; olanexidine gluconate vs. conventional method in colorectal surgery.

Yoshihiro Shirai (Kawaguchi Municipal Medical Center, Japan)

IP2-7 DNA methylation biomarker in biliary brush sample for diagnosis of cholangiocarcinoma in patients with bile duct stricture

Varayu Prachayakul (Siriraj Hospital, Mahidol University, Thailand)

IP2-8 Emergency Colonic Stenting versus Conventional Open Surgery for Acute Left-sided Malignant Bowel Obstruction: A Meta-Analysis

Dennis F. Fernandez (University of Santo Tomas Hospital, Philippines)
